

## Core Product Specialists: Cable

**GFI have unrivalled, in-house cable experts with many years' experience in the supply of wire and cable to Companies and Projects located around the world. Our excellent staff have vast experience not only handling day to day requirements but also managing large oil, gas and Petrochemical cable projects**

GFI have direct and strong business relationships with many of the major cable manufacturers currently operating in the international market place. Our relationships, experience and knowledge of their capabilities, allied with our unrivalled knowledge of the distributor/stockist profiles, put us in a unique position to help with your cable requirements regardless of your needs. If a cable is required immediately, we respond instantly to meet your needs. If it is not available from stock, we can use our relationships to get it manufactured in the shortest possible time, with the lowest viable minimum manufacturing requirements. We can help you with [all your cable requirements](#) including power, control and instrumentation types, meeting any leading international standards such as British Standard, IEC, VDE, DIN, UL, CSA etc.
